- As with virtually all supplements, statements made have not been approved by the FDA.
- These products are not intended to cure, treat, diagnose or otherwise benefit your pet - per regulation, only pharmaceutical products are permitted to make that claim.
- Results may vary according to the animal's diet and lifestyle.
- These products are not to be used in lieu of, but as a support to, proper veterinary care.
- The amount of time a product must be used before seeing results is heavily dependent on your pet's existing diet and current condition. Generally speaking, minimal results begin to occur between 1 dose and 3 weeks. Maximum results are often not achieved for about 3 months.
- In severe conditions, or conditions where the pet is dependent solely on the effects of the supplement because the diet has not been improved to eliminate processed foods, this time may increase greatly.
- The cleansing response, aka healing crisis, is a process in which your pet's body begins releasing the toxins that have built up in their system over the years. The speed and severity of the cleansing response will vary by individual pet according to their age, diagnosis, lifestyle, severity of symptoms, etc.
- Symptoms of a cleansing response may include: increased shedding, panting, lethargy, excessive water consumption, slightly loose stools, dermatitis, and self-fasting. These symptoms are temporary and transitory. Not every pet will have a cleansing response.

Chia Seeds

Chia Seeds are high in Omega 3 Fatty Acids, Phosphorus, Calcium and Manganese.

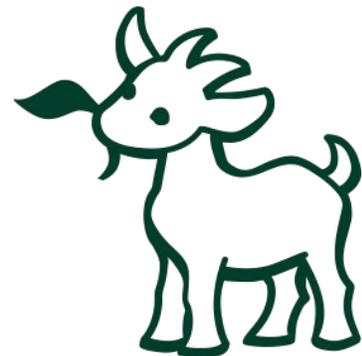

They are an excellent addition to a Ketogenic Diet.

They are great for putting weight on pets that otherwise don't hold weight well (see directions).

Rehydrated, they can be used in enrichment mats and stuffable toys.

Ingredients

Organic Peruvian Chia Seeds
Salvia hispanica

Chia Seeds Instructions

Dosage

Give 1/2 tsp of rehydrated Chia Seeds per 20lbs of body weight once to twice per day

You can make a batch that will last you for up to 4 days:

1. Measure out ¼ tsp per 20 lbs of body weight of your pet
2. Multiply that by 4 (number of days)
(E.g. 50lb pet = ¼ tsp x 4 = 1 tsp - if using 2x/day, double that amount)
3. Place calculated amount into a mason jar
4. Add water, Better Butter Tea, Tummy Butter Tea, TEXsauce, GOATnog, Fish Jiggles, or a quality (onion-free) bone broth.
5. Let soak for 15+ minutes
6. Serve ½ tsp per 20lbs of body weight (wet measurement) 1-2x/day
