

Disclaimer

- As with virtually all supplements, statements made have not been approved by the FDA.
- These products are not intended to cure, treat, diagnose or otherwise benefit your pet - per regulation, only pharmaceutical products are permitted to make that claim.
- Results may vary according to the animal's diet and lifestyle.
- These products are not to be used in lieu of, but as a support to, proper veterinary care.
- The amount of time a product must be used before seeing results is heavily dependent on your pet's existing diet and current condition. Generally speaking, minimal results begin to occur between 1 dose and 3 weeks. Maximum results are often not achieved for about 3 months.
- In severe conditions, or conditions where the pet is dependent solely on the effects of the supplement because the diet has not been improved to eliminate processed foods, this time may increase greatly.
- The cleansing response, aka healing crisis, is a process in which your pet's body begins releasing the toxins that have built up in their system over the years. The speed and severity of the cleansing response will vary by individual pet according to their age, diagnosis, lifestyle, severity of symptoms, etc.
- Symptoms of a cleansing response may include: increased shedding, panting, lethargy, excessive water consumption, slightly loose stools, dermatitis, and self-fasting. These symptoms are temporary and transitory. Not every pet will have a cleansing response.

Sourcing is Key

Individually Hand-crafted

Fair Trade for Life Certified Ingredients

Non-GMO

Certified Organic

Kosher

Hand-Selected Harvesting

Zero-Waste Certified Business Ingredients

Small Farmer Supportive

No Artificial or Natural Colors or other unnecessary junk

NO Fillers, Ever!

NO Preservatives

NO Binders

No Nuts, No Soy, No Wheat, No Corn... No nothing but medicinal herbs!

Milk Thistle

Milk Thistle, or *Silybum marianum*, is revered as an effective liver protective herb.

The seeds of the Milk Thistle plant contain a chemical constituent called Silymarin. Silymarin has been heavily researched and validated to be anti-inflammatory with protective and restorative effects on the liver and kidneys.

Milk thistle supports the liver's natural detoxification process

Ingredients

Organic Milk Thistle Seed
Silybum marianum

Milk Thistle

Milk Thistle has been shown to:

- Reduce nephrotoxicity (toxins in the kidneys)
- Reduce hepatotoxicity (toxins in the liver)
- Help with viral hepatitis
- Reduce neurotoxicity (toxins in the brain and nervous system)
- Reduce depression
- Reduce some cancers
- Protect against gallbladder disorders
- Protect the liver against damaging effects of venomous snake bites and insect stings/bites
- Protect the liver against damaging effects of mushroom poisoning
- Reduce inflammation
- Boost immune health

Important to Note

In rare cases and like any plant, Milk Thistle can cause allergic reactions. Symptoms could include any or all of the following:

- Runny nose
- Itchy eyes
- Difficulty breathing
- Digestive upset

If a pet is suffering from any chronic symptoms it's beneficial to include scrutiny of any supplements, including this one, as a potential culprit.
